CROSS CHECK™
Tamper Proof Torque Mark

FEATURES

- Highly visible fluorescent color paste that dries to a hard brittle film.
- Mark will be easily broken if parts are tampered with or become loose.
- Provides a convenient visual method for identification of vibratory loosening or tampering on nuts, bolts, fasteners and assemblies.
- Easily detect when torque has changed.
- Provides warranty protection against tampering.
- Withstand water and household cleaning agents.
- Highly visible under ambient light and fluorescent under UV light.
- Excellent adhesion to metal and other substrates.
- Does not contain any HAPS or Xylene.

MATERIALS COMPATIBILITY

- Safe on most surfaces.
- Product may darken in color at elevated temperatures.
- Surface tests should be run to determine compatibility prior to use.

HEALTH AND SAFETY

- Combustible liquid and vapor. Keep away from heat, sparks and flame. Use only with adequate ventilation. Avoid contact with skin and eyes.

- Refer to SDS (Safety Data Sheet) for complete information on health and safety. Visit our website to obtain SDS.

PHYSICAL PROPERTIES

- Apperance: Opaque viscous liquid.
- Odor: Mild
- Specific gravity: 1.02
- VOC level: <45.00% by weight
- Flash point: 105°F
- Dry Time: <1 hour, dry to Touch*
- Heat Resistance: 400°F**
- Shelf Life: Two years

Note: Drying time may vary depending on film thickness. Due to the nature of florescent pigment, colors are not lightfast, and eventually will fade away with UV exposure.

* Color might turn dark; however paint marks remains legible.
